### Ford County, IL Daily COVID-19 Update

Ford County Public Health Department (FCPHD) is announcing no new confirmed cases today. Ford County has a total of 14 confirmed cases, including one death. Three of the confirmed cases are associated with congregate living facilities. These numbers are accurate as of the release time. Public health officials continue to investigate and contact all individuals who may have had exposure to individuals that tested positive for COVID-19. Federal privacy restrictions prohibit the release of any further information.

FCPHD continues to encourage all residents to conduct preventive measures, practice social distancing, and follow Governor Pritzker's Stay at Home Executive Order, which has been extended through May 30, 2020. COVID-19 appears to spread from person-to-person mainly with close contact (less than 6 feet), but may also be spread by a surface that has the virus and then touching one's mouth, nose, or possibly one's eyes. Illinois Department of Public Health states that the spread is through respiratory droplets produced when an infected person coughs or sneezes.

#### Illinois COVID-19 Statistics

The Illinois Department of Public Health (IDPH) COVID-19 Statistics webpage offers numerical data such as the total number of COVID-19 positive (confirmed) cases and deaths at state and county levels. Please note, counties reporting zip code data have more than five cases per zip code. This is consistent with Collection, Disclosure, and Confidentiality of Health Statistics (77 Ill. Adm. Code 1005). According to 77 Ill. Adm. Code 1005, FCPHD cannot release information by town or zip code because six or more confirmed cases has not occurred in a Ford County zip code. FCPHD will release zip code data should it become applicable.
